## *What We Believe*

- **Democracy matters.** No matter your political party, every American should be deeply concerned about the blatant attacks to the democratic principles our country was founded on.
- **We must stand together.** Now is the time to be vocal, visible, and united in defense of our Constitution, our community, and our future.
- **Government should serve the people.** We support vital public programs that help build a stronger nation like Social Security, Veterans' benefits, Medicare, Medicaid, public education, infrastructure, and the preservation of our natural lands.
- **Community is our strength.** We will support one another through these challenging times, and we will rise by lifting each other.

## *What We're Standing Against*

- **Project 2025** and any plan that threatens the independence of government institutions or concentrates power in a single branch.
- **The erosion of civil liberties** and the weakening of checks and balances that protect everyday Americans.
- **Attacks on the judicial system**, which must remain fair, impartial, and independent.
- **Attacks on law-abiding immigrants**, who are part of the fabric of our communities and economy.
- **Illegal cuts to essential federal programs** that millions of Americans rely on for healthcare, education, and stability.
- **Unstable economic policy** that undermines working families and small businesses.
- **A government that serves billionaires instead of the people.**
